Fall 2018 After School Enrichment Classes

PIANO-KEYBOARD CLUB by Musical Minds

Kids will have the opportunity to learn to play their favorite songs and music on electric keyboards. Radio hits, movie and television themes are made so easy, that our participants will be playing them after the very first class! The club is a combination of keyboard piano lessons and a music learning workshop, which uses a clever visual method to teach the basics of music reading and piano playing. We've developed lots of learning games and activities designed to teach kids basic music reading skills and playing techniques, in ways that are fun, engaging, and stimulating. We want our students to stay motivated and continue to want to learn to play music, whether they like Taylor Swift, Bruno Mars or Beethoven. We have all the music they want. We have music from Frozen, Stars Wars, Jurassic Park, Indiana Jones, and lots more. Each participant has his/her own keyboard supplied during the class, along with headphones, and books and other materials are included.

Students learn hands-on through a variety of popular songs providing education on rhythm, melody, harmony, technique, form and expression in multiple styles. Well-rounded beginning musicality and the ability to work collaboratively and listen to one another is our goal. They will get firsthand experience practicing and recording complete songs, starting with covers and moving on to an original and/or parody of their own. Through these performances, students learn proper concert etiquette and instrument care. No prior skill is required, but children who have taken lessons also enjoy the experience taking on lead parts and mentoring the newcomers. All in-class materials will be provided and students will leave with a digital recording of their completed work.
